

Super Leggera (Lightweight)

The Oyster™ Super Leggera is designed for applications where weight is of critical importance. An ingenious re-design of the market leading Compact series valve, the Super Leggera weighs barely half as much, and is available in a completely tool-free version.

All Oyster™ branded sanitary valves are designed according to cGMP standards, for trouble free operation and easy maintenance. The valve design ensures optimal hygienic and functional characteristics and eliminates recesses with hard-to-clean corners. Oyster™ branded valves are manufactured to exacting tolerances and finished to the highest pharmaceutical standards.

FEATURES

Atex	II 2GD c IIB T4/T135°C
Certification	Ask for other zones
Diameter	DN 50 / 80 / 100 / 150 / 200 / 250 / 300 – (2”-3”-4”-6”-8”-10”-12”)
WIP	suitable for washing in place. Cleaning and Sterilization operations are greatly simplified thanks to the extreme ease of stripping down and reassembly offered by the Clamshell clamp system
Operation	Hand lever

SPECIFICATIONS

M.O.C. CONTACT PARTS	AISI 316L
M.O.C. OTHER PARTS	AISI 304
M.O.C. SEALS (all FDA 177.2600 compliant)	SILICONE
AVAILABLE CONNECTIONS	TC BS 4825-3, TC ASME BPE, TC DIN32676, TC ISO285, TC OSAME A, Weld End, Mounting Collar Compact Series
